Property Details

This building addition is on approximately 1-acre of the 18-acre campus. The multipurpose addition is 21,232 s.f. and will consist of a gym, classrooms, kitchen, and new entrance gathering space. The addition will change the appearance of the church, give it a new look, and new grand entrance.

The 21,232 s.f. building is a Butler custom engineered skeletal structure system, MR-24 standing seam roof system (50-year roof), Butler Stylwall wall panels, Dryvit, storefront glass, Butler Shadowall, painted tilt wall, and many unique entrance features.

Design and built by Lichtefeld, Inc. Keiser Group, and Butler Mfg.
