

Let LICHTEFELD handle the business of building while YOU handle building your business!

## MARMON-HERRINGTON GARAGE ADDITION

**Under Construction**

Square Feet : 6,200 s.f.

Project Location : 13001 Magisterial Drive  
Louisville, KY 40223

Construction Dates : December 2024 through April 2025

End User : Marmon-Herrington

This 48' x 124' x 30' Butler building is an addition to the current 32,000 s.f. building. The 6,200 s.f. addition will provide five truck mechanic bays for retro fitting military vehicles to all-wheel terrain trucks. The Butler building will have two 5-ton bridge cranes spanning across all five bays. The garage will be heated, lighted with plenty of ventilation. The roof will be a Butler MR-24 standing machine seamed roof system with R-30 insulation. The walls will be 2.5" Thermo wall insulated metal panels. There will be exterior architectural features to meet the Eastpoint Business Center Park requirements.

The project is designed and built by Lichtefeld, Inc. partnered with Trapani Architects and LJB Engineers
