

Let LICHTEFELD handle the business of building while YOU handle building YOUR business!

# NINTH AND O BAPTIST CHURCH

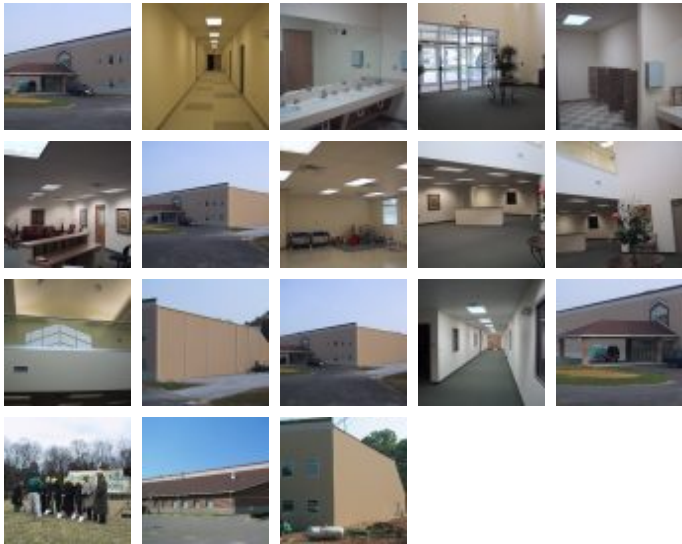

## Schools and Churches

Square Feet : 26,000 s.f.

Project Location : Breckenridge Lane - Louisville, Kentucky

Contruction Dates : Start: March 2004 - Complete: October 2004

End User : Congregation of Ninth and O

26,000 s.f. addition, two-story educational facility. This is a Butler metal building structure with conventional steel building accents and wood framing with metal panels on exterior. It has an MR-24 standing machine seamed roof system. The wall system is composed of concrete tilt-wall, brick, and Butler Texture Cote wall panels. Other materials used for this project; brick, block, storefront glass and Dryvit. This was a phased project that was built while Ninth and O was in operation. There were several coordination meetings and plenty of concessions made to accommodate the client while under construction. \* month project completed on time and in budget.

This project was designed by Lichtefeld, Inc. and Berry-Prindle Architects.

Engineered by Lichtefeld, Inc. and AGR Civil Engineers.

Design/Build project by Lichtefeld, Inc.
